April 2015 – Information for Stallholders

Insurances:

Over the past 12-24 months the cost of insurance has increased significantly.

In the interests of ensuring we are able to continue to offer stallholders a properly insured, safe venue for trading, the Management Committee has needed to make some changes to the current insurance arrangements.

All stallholders will be required to have current product and public liability cover - minimum \$10mil. You will need to lodge a copy of the appropriate Certificate of Currency with AFM Inc. for our records – you will also be required to have a copy with you at each market for sighting. This is a condition of our insurance cover.

If you have this cover and are insured as a business, you are generally covered to sell your own product anywhere. If you are selling on product from other producers, please check that your policy covers this, and bring with you at each market a list of those producers

If you are trading as an individual, you may need to acquire specific Stallholder insurance – this is readily available immediately online and is inexpensive.

Unfortunately, we will no longer be able to continue accommodating regular stallholders who do not have their own insurance.

If you currently have no insurance and wish to continue trading at this market, please contact us and we can discuss your options.
