I am applying for a **Community Information Stall** on ___/___/___ (markets are 1st & 3rd Sundays). Please advise the nature of the information you will be providing.

I require _____ stall / stalls (no. of stalls).
Each stall is 3mx3m. The Stall Fee is \$25 per stall
Additional space is an extra \$25 per extra 3mx3m or part thereof

I require **power** for my stall site (NB: Power is an additional \$10)

Please list all of your electrical appliances. Total power draw per power point socket in power box should not exceed 2400 watts for a 10 amp socket or 3600 watts for a 15amp socket. Each electrical appliance should indicate its power consumption. For example, the image below indicates that the appliance has a draw of 1800 watts, which would allow for another appliance/s up to 600 watts for a 10amp socket. All electrical appliances/ power cords and extension cords must be "tagged and tested" (current). For more information see <http://www.safework.nsw.gov.au/health-and-safety/industry-safety/electrical-and-power/electrical-inspection-and-testing>.
